KALIL RAHMAN J

Full Stack Developer (React | Flask | MySQL)

OBJECTIVE

Motivated and self-driven full stack developer skilled in React, Flask, and MySQL. Seeking a challenging entry-level role where I can contribute to impactful projects, continue learning, and grow into a professional developer.

EXPERIENCE

DP World, Chennai | February 2025

internship

Assisted in the development of internal web tools for logistics and data tracking. Contributed to automating routine operations, improving workflow efficiency, and minimizing manual errors. Gained practical exposure to data handling, application development, and organizational processes in a large-scale corporate environment.

SKILLS

- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, bootstrap
- **Backend:** Python, Flask, REST APIs, Jinja2
- **Database:** MySQL, SQLite
- **Tools & Platforms:** Git & GitHub, VS Code, Postman, Node.js, Netlify, Heroku

PROJECTS

System Performance Monitor | Python, SQL Server, power Bi

February 2025

Created a real-time system monitoring dashboard displaying CPU, memory, and disk usage data. Automated backend processes to store system metrics in a SQL database, refreshing every 5 seconds. The dashboard provides a live view of system performance with dynamic updates.

Student Management System | Flask, MySQL

March 2025

Developed a full-stack web application with a role-based user system, including admin and student dashboards. Implemented dynamic content rendering, user authentication, and session management with database integration for managing student records.

EDUCATION

Bachelor of Engineering (BE) – Computer Science & Engineering

St. Michael College of Engineering and Technology | Expected Graduation: 2026
